DEEP TILLAGE CAST RIPPER LEG ASSEMBLIES

Suits 4" x 4" Square RHS Frames
Available with either 24"
or optional 30" underframe legs.

This cast ripper leg has stood the test of time over the decades and is used by Original Equipment Manufacturers across Australia.

Made from high tensile steel this rigid cast ripper leg assembly is also shear pin protected.

The assembly comes fitted with a replaceable shin guard and standard point.

The assembly has many point options available with various levels of tungsten grit (Ag-Tuff) as well as various tungsten tile options.

As an optional extra a 16" mulch blade assembly is available.

TIAPAG024: 24"

Assembly is supplied fully assembled and includes all hardware, standard point and shin guard. (Shown left with Mulch blade assembly)

TIAPAG031: 30"

Assembly is supplied fully assembled and includes all hardware, standard point and shin guard. (Shown right)
